**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification on page 5, line 2, replace "5,5,03,944" with "5,503,944".

***EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE***

The following is an examiner's statement of reasons for allowance: the instant claims are allowable over the prior art of record, because the prior art is silent to an electrochemical fuel cell comprising: a porous metal flow field; an intermediate layer bonded directly to the porous metal flow field; and an electrode bonded directly to the intermediate layer, wherein the porous metal flow field is configured to deliver gaseous reactant to the intermediate layer by flowing through the pores of the porous metal flow field.

The prior art, such as Fronk et al., U.S. Patent 6,372,376, teaches an electrically conductive fuel cell component comprising first second metal flow fields 58 & 60. The reference is silent to porous metal flow fields that are configured to deliver gaseous reactants to the intermediate layers by flowing through the pores of the porous metal flow field.

*CONCLUSION*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
